### Stolen check

CLEAR

#### Not recorded as stolen

No theft report is recorded against this vehicle. Tasmanian records are not available through this service, and the absence of a report does not by itself prove a vehicle was never stolen.

## Written-off history

ALERT

### Statutory write-off: cannot be re-registered

Damage was recorded as water. The registry records: Flood: water above floor level; Interior; Electrical. The incident was recorded on 2022-11-02. A statutory write-off is damaged so severely that it can never be registered for road use again in Australia. It can legally be sold only for parts or scrap.

*Do not buy this vehicle to drive. If the seller is presenting it as roadworthy, treat that as a serious warning about the whole listing.*

## Money owing

CLEAR

### No money owing

No security interest is registered against this vehicle on the Personal Property Securities Register, so no lender has a claim over it.

## Registration status

CAUTION

### Registration has expired

This vehicle is not currently registered. Registration expired on 2026-06-30. It cannot legally be driven on public roads until registration is renewed.

*Factor the renewal cost into your offer, and arrange an unregistered vehicle permit if you need to move it.*

## Repair History

CLEAR

### No insurance claim or repair on record

No repair or insurance claim is recorded against this vehicle. Not every repair is reported. Work paid for privately, or done before the vehicle came to Australia, would not appear here.

## Listing History

CLEAR

### Advertised before

We found this vehicle in past online advertisements. The dates, prices and kilometres are listed below. They show how long it has been for sale and what the asking price has done.

## Vehicle identity

CLEAR

### Identified as a 2018 Testmake Testmodel

The national register identifies this vehicle as a 2018 Testmake Testmodel, blue.

*Check this matches the vehicle in front of you, and that the VIN on the car matches the VIN in this report.*

## What the market says

| Date             | Event      | Asking price | Odometer   | Where           |
|------------------|------------|--------------|------------|-----------------|
| 3 December 2024  | Removed    | \$23,000     | 130,000 km | facebook.com.au |
| 15 November 2024 | Advertised | \$23,000     | 130,000 km | facebook.com.au |
| 29 October 2024  | Removed    | \$23,000     | 130,000 km | facebook.com.au |
| 7 October 2024   | Advertised | \$23,000     | 130,000 km | facebook.com.au |

These are the kilometres the seller advertised at the time, not readings we have taken. An advertised figure higher than a later one is worth asking about.

## Estimated market value

Dealer retail: \$21,209 - \$23,459

Trade-in: \$17,709 - \$19,959

A private sale usually falls between these two figures.

Estimated for a vehicle at 187,918 km.

This estimate is drawn from a limited number of comparable sales. Treat it as indicative rather than firm.

A market estimate based on comparable sales, assuming average condition for the age and kilometres. It is a guide for negotiating, not an appraisal or a guarantee of sale price, and it does not replace a physical inspection.

This report reflects what the official Australian vehicle registries held at the time of the search. Records change, so it is a snapshot rather than a guarantee about the vehicle. Always check that the VIN on the car matches the VIN in this report. A registration record shows who is responsible for a vehicle on the road, not who legally owns it; whether money is owed on a vehicle is answered by a PPSR search. Where a registry record is itself wrong, only the state or territory road authority that issued it can correct it. We cannot.
